SOUR STOMACH INDIGESTION

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.— The efficacy of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's. 2-11

"The South Lake Press has already outgrown its first quarters," remarks the bright little newspaper now published at Clermont. Carpenters and masons were at work when the newspaper went to press, adding to the size of the building occupied. The Press has modern equipment, and with plenty of room to spread around is expecting to have more comfort and be better prepared to get out a newsy weekly and attend to a large and growing business in job printing.

Keep Charlotte County Dollars in Charlotte County

Because of the fact that labor is the biggest item of cost in the production of printing, when Charlotte county people deal with the Punta Gorda Publishing Company, the larger portion of each dollar spent with us stays in the community and eventually a part of it finds its way back into the till whence it came. Each dollar spent with us helps to pay taxes, support community organizations, make improvements and pay salaries to home people who deal with home people. Every share of stock of the Punta Gorda Publishing Company is owned by home people—and every stockholder is a taxpayer in Charlotte county—some of them very large ones.

The above are very good reasons for Charlotte county people keeping the dollars they spend for printing in Charlotte county, but there are better ones: We are equipped to turn out all kinds of printing at prices generally 10 percent under the price asked by big-city printers, because our production costs are less, and if you want lithographed, engraved or embossed work of any character we are ready to supply your needs at prices no higher than asked by others—and sometimes our prices on this class of work are less than others ask. We use the Franklin printing price list—the price list used by 10,000 of America's best printers—which insures the customer a fair price and the printer a fair profit—which is all either should seek.

It's good business to "keep Florida dollars in Florida" but it's better business to "keep Charlotte county dollars in Charlotte county"—especially when they will buy the same or better in quality and 100 of them spent here are worth as much as 110 spent away from home.
